

FABRICE BODSON

CYBER SECURITY ADVISOR

Passionate about new technologies, I am a 25-year-old eager to develop my skills, to learn, and to evolve throughout my career. Systems security is the dimension that interests me most in IT, but above all, what interests me is producing results and achieving satisfaction. I am someone who is cheerful, optimistic, dynamic, and driven by a strong desire to discover new things.

WORK EXPERIENCE

KPMG BELGIUM

Junior Advisor | September 2024 - Now

As part of the Cyber & Privacy team, I participated in various projects. I designed ISO Security roadmaps, developed a Security Controls compliance framework and took part in different DORA projects. I worked for clients in the Public and Finance sectors.

Internship | February 2024 - April 2024

In the Digital Risk Management Advisory department, I carried out research on cyber threats in the financial sector concerning cryptocurrencies, NFT abuse and Bitcoin-related risks.

FAYMONVILLE AG

Internship | February 2022 - May 2022

Implementation of a DMZ and reinforcement of MFA process for VPN access. The technologies used are Fortinet's firewall and VPN solution, and Microsoft Azure AD.
